

Project Design Phase

Solution Architecture

Date	27-8-2026
Project Name	Automated-Network-Request Management
Maximum Marks	4 Marks

The project uses Flow Designer actions including **Get Catalog Variables, Create Record, Ask for Approval, Flow Logic, Send Email, and Update Record** to automate this lifecycle

Layer	Component	Function
User Layer	Requester / IT Team /	Submit, review, approve, and process network requests
	Approver	
Application Layer	ServiceNow Service Catalog	Provides the Network Request catalog item
Form Layer	Catalog Variables & UI	Captures request details and displays fields dynamically
	Policies	
Workflow Layer	Flow Designer	Automates request processing and approval
Approval Layer	Ask for Approval	Handles approval or rejection of requests
Data Layer	Network Database	Stores network request information
	Table	
Notification Layer	Email Notification	Sends request status and approval updates
Fulfillment Layer	Network/IT Team	Processes approved requests
Reporting Layer	Reports & Analytics	Monitors request volume, resolution time, and SLA performance

Solution Architecture – Automated Network Request Management
